

# **ACKNOWLEDGEMENT**

I would like to express our deep and sincere gratitude to our Project Supervisor Hemant Kumar Saini for giving us the opportunity to do the project and providing valuable guidance throughout this research and development of automatic fire extinguisher robot. Their dynamism, vision and exquisite hard work have inspired us deeply. They taught us research methodology and how to present research tasks as clearly as possible. It was an honor to study and work under their guidance.

We were able to complete my research thanks to the ongoing support and guidance of the project mentor.
